| B-27-D | 2 Door | -- |
| B-30-D | 2 Door | -- |

*Any width available from 9 Inch to 30 Inch, and in any fraction of an inch.*

A Base Cabinet with Top Drawer is the most common style cabinet in any kitchen. The top drawer provides great storage for grilling tools, utensils, foil, mitts and other accessories, while an adjustable behind the doors provides storage space for larger items. Add pull-out trays for ease of access to items stored below or remove the adjustable shelf to storage larger or taller items.

## Pull-Out LP Tank Cabinet

**Available Models:**

| | |
|---|---|
| LPC-18 | L/R |
| LPC-18-D | L/R |

*LP Tank Cabinet available with Full-Height Door (LPC-18), or with Top Drawer (LPC-18-D).*

*Fixed width at 18" wide.*

The Pull-Out LP Tank Cabinet stores a standard size 5G/25lb LP gas tank for your Grill, Side Burner, or other gas cooking appliance. Position this cabinet adjacent to or between the gas appliance cabinets in your design plan. The pull-out feature makes tank exchange or refill easy. A top drawer added to this cabinet provides additional storage space for grilling tools or utensils right where they are needed most.

| GP-39 | 2 Door |
| GP-42 | 4 Door |
| GP-45 | 4 Door |
| GP-48 | 4 Door |

Grill Pedestal Cabinets provide functional storage and added support to carry the weight of a variety of grill and smoker models. Many projects include Kamado-style grills and smokers, and a Grill Pedestal Cabinet positioned below your kamado-style grill allows you to incorporate this unit as a part of your outdoor kitchen.

**Every Grill installed in, on or near a Werever Cabinet requires an Insulating Jacket for combustible enclosures from the Grill Manufacturer, or appropriate clearance to combustible materials.** Consult with your Account Manager for the correct use and size of Grill Pedestal Cabinet.

## Built-In Appliance Pedestal Cabinet

**Available Models:**

| | |
|---|---|
| BAP-24 | 2 Doors |
| BAP-27 | 2 Doors |
| BAP-30 | 2 Doors |
| BAP-33 | 2 Doors |
| BAP-36 | 2 Doors |

The Built-In Appliance Pedestal Cabinet provides functional storage and added support to carry the weight of a variety of appliances. The most common use of this cabinet is with Kamado-style grills. The front stretcher and raised sides allow for countertop to surround the unit for a true built-in application. The open space in this cabinet may also be used to house a microwave or other small appliance for easy access under the countertop.

**Every Grill installed in, on or near a Werever Cabinet requires maintaining appropriate clearances to combustible materials.** Consult with your Account Manager for the correct use and size of the Built-In Appliance Pedestal Cabinet.

## Specification Sheet

## Bi-Level Cabinets (Bar Cabinets)

### Available Models:

Add "**BL-**" to the front of any Werever Cabinet model to make it Bi-Level, including:

Full Height Door Cabinets
Base Cabinets with Top Drawer
Sink Base Cabinets
4-Drawer Base Cabinets
Pull-Out Trash Cabinets
Grill Cabinets
Side Burner Cabinets
Blind Base Cabinets
LP Tank Cabinets
Open Base Cabinets
Refrigerator End Panels

Bi-Level Cabinets allow you to create a bar section without building a retaining/pony wall. This cabinet has a 4.5" deep section integrated at back and rises 6" above the working surface (standard bar height). Bi-Level Cabinets are built as a single structural unit with no seams in the cabinet sides for strength and structural integrity at the sides and bar section.

The Bi-Level Cabinet design is available for all standard Werever Cabinets. Complete the look with Finished Back Panels in either plain or with decorative detail upgrade.

## Corbels

### Available Models:

| | |
|---|---|
| CORB-A | Arched Corbel |
| CORB-D | Deluxe Corbel |
| CORB-S | Standard Corbel |

Corbels are multifunctional for both aesthetics and function. Corbels may be used on the back side of an island or free-standing layout of cabinetry to help support your countertop or bar top overhang for seating, or even on the end of a run for added countertop surface beyond the cabinets if space allows. Corbels are constructed from the same color of HDPE as your cabinetry order. Choose from three styles.

### Example of Installed Deluxe Corbel

*Photo also features Black color, and Full V-Groove Decorative Upgrade Detail on Finished Back Panels.*

**Standard Size:** 9” Deep, overall
10” High, overall
2.5” Wide, overall

### Available Modifications:

None Available.

**NOTE: Please consult with your Countertop Fabricator and Installer for the optimal method of installation of corbels to properly support your countertop or bar top overhang. Additional reinforcement may be required in the field and will not be determined or provided by Werever.**

# WEREVER OUTDOOR CABINETRY

## Specification Sheet

## Fillers

### Base Filler (BF-)

Werever's Fillers have a return piece for you to easily connect the filler to the side of cabinet using stainless steel binding posts. Use a Base Filler between a cabinet and a wall to ensure your cabinet door will clear and open beyond 90 degrees. Base Fillers can be trimmed and scribed once cabinets are level, square and plumb.

*Available 1" wide up to 12" wide (L/R).*

### Double Return Filler (BFDR-)

The Base Filler with Double Return is used between two cabinets; two returns allow you to connect the filler to a cabinet on each side. Double Return Fillers may not be trimmed during install and should be ordered to fit. Use this filler style if spanning and area with a post or other architectural feature or obstruction.

*Available 3" wide up to 9" wide.*

### Refrigerator Filler (RF-)

Refrigerator Fillers are used between a Cabinet and an Appliance such as an under-counter Refrigerator, Ice Maker, or Dishwasher, and particularly if clearance is required for a door or drawer to open. This filler may not always be required, and your Account Manager and Designer will assist you with the correct application and use.

*Available 1" wide up to 6" wide (L/R).*

### Base Corner Filler (BCF-)

Rather than having to trim and mitre fillers at a dead corner, Werever offers a Base Corner filler precisely sized to fill the corner in your project. A minimum of 2"-3" is recommended at a dead corner with standard cabinets, and minimum 5"-6" is recommended if a Grill or Side Burner is positioned to the right or left of the corner.

*Available 2" x 2" , up to 12" x 12"*

### Wall Filler (WF-)

Wall Fillers have the same return piece as all base fillers to connect to the side of the cabinet box, and also have a bottom piece to conceal the underside of the space between your wall and cabinet at the splash level. Use a Wall Filler between the cabinet and wall to allow your cabinet door to open the full 100-degree swing of the hinges.

*Available 1" wide up to 6" wide (L/R).*

### Wall Corner Filler (WCF-)

Wall Corner Fillers provide extreme ease for installation. Two wall fillers join to form one and cut specifically to your project so there is no need to fit and trim in the field, and a precisely fabricated bottom panel conceals the underside of the void in the corner at the splash level. The 3" x 3" size allows for doors to open clear of the adjoining run.

*Available 3" x 3".*

All Fillers are sized to the height of your base, wall, or pantry cabinets. Fillers can be used in a variety of ways to give you the perfect, custom fit. Consult with your Account Manager on the best use and style of fillers.

*Visit **www.werever.com** to view available colors and door styles for all cabinets.*

**All Werever Outdoor Cabinets are constructed from solid, ¾" high-density polyethylene.**

## Refrigerator End Panel

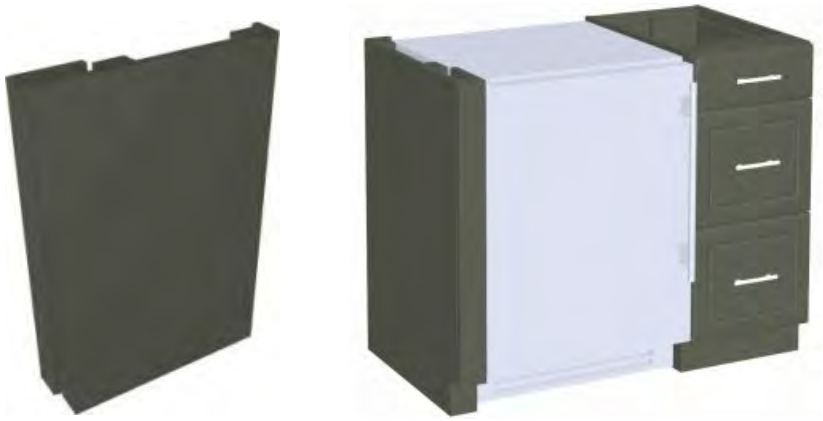
**Available Models:**

REP-3 R/L
REP-3.5 R/L
REP-4 R/L
REP-4.5 R/L
REP-5 R/L
REP-5.5 R/L
REP-6 R/L

*Any REP width available from 3 Inch to 6 Inch, and in any fraction of an inch.*

**Standard Height:** 34.75” overall (31” box)

**Standard Depth:** 24” overall (23” box)



Refrigerator End Panels are designed to cap the end of a run of base cabinets when an under-counter appliance, such as refrigerator, ice maker, or dishwasher, is planned to be installed on an end. Refrigerator End Panels are structural, will assist in supporting the weight of your countertop, and have leveling legs.

## Finished Return Panel

**Available Models:**

FRP-3 R/L

*FRP width may be increased upon request, if required.*

**Standard Height:** 34.75” overall (31” box)

**Standard Depth:** 24” overall (23” box)

Finished Return Panels are designed with two solid, finished panel sides to cap the end of an open space where both sides of the panel will be visible (for example, a seating area or flexible open space). Finished Return Panels are structural, will assist in supporting the weight of your countertop, and have leveling legs.

## Specification Sheet

## Corner Posts

### Available Models:

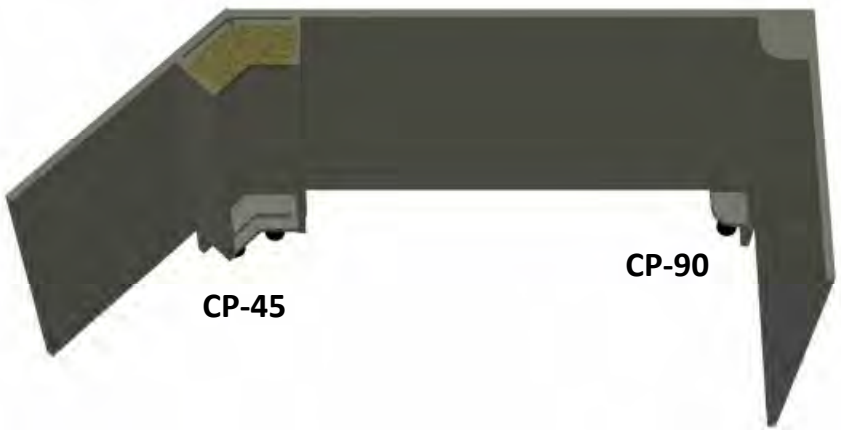
**Standard Corner Posts:**

| | |
|---|---|
| CP-90 | 4” x 4” |
| CP-45 | 6” x 6” |

**Bi-Level Corner Posts:**

| | |
|---|---|
| BLCP-90 | 12” x 12” |
| BLCP-45 | 6” x 6” |

There are times when additional structural support is needed, for example when attaching finished back panels to cabinet installations or in voided areas. Werever builds Corner Posts that use the same leveling legs as their cabinets to simplify installation and allow toe kick pieces to be attached. Your design may call for these pieces which greatly reduce installation difficulty and improve the structural integrity of the finished project.



### Available Modifications:

Height can be modified to coordinate with your Cabinet height.

**NOTE: Your Account Manager and Designer will assist you with the recommended placement of Corner Posts in your design plan. Please also consult with your Installer and Countertop Fabricator regarding the required support needed for your project installation.**

### Example Rendering of Corner Posts

*Rendering also features Werever’s Decorative Back Panels (DBP-) used in island or other free-standing designs.*

*Visit **www.werever.com** to view available colors and door styles for all cabinets.*

**All Werever Outdoor Cabinets are constructed from solid, ¾” high-density polyethylene.**

## Specification Sheet

## Decorative Back Panels

**Available Models:**

| | |
|---|---|
| DBP-STD | 31” Tall |
| DBP-BILEV | 37” Tall |
| DBP-BH | 42” Tall |
| DBP-TALL | 48” Tall |

*Decorative Back Panels are available up to 72” wide (solid color), or up to 53” wide (woodgrain upgrade).*

*Any height available up to 48” tall, in any fraction of an inch.*

Decorative Back Panels finish the back side of any island or other free-standing cabinetry installation with the same ¾” thick HDPE material from which Werever Cabinets are constructed. Installation Hardware for Decorative Back Panels is provided with your order. Decorative Upgrades are available in Full V-Groove (beadboard-look) or to coordinate with your Upgraded Door Style selection.

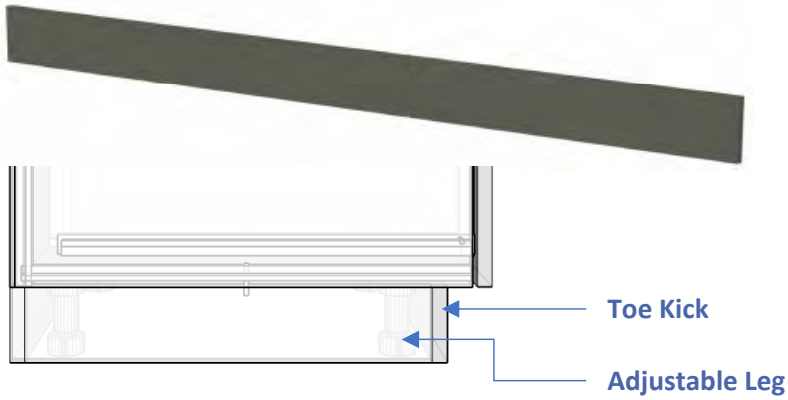
## Toe Kick

**Available Models:**

| | |
|---|---|
| TK-6 | 5” Tall |

*Toe Kick may be modified up to 10” Tall, as required.*

*Fixed 72” width.*



All Werever Cabinets install on adjustable legs, allowing for a level, square and plumb installation regardless of uneven floor surface or slope in your outdoor environment. Toe Kick material, of the same ¾” thick solid HDPE material as the cabinetry, clips on these adjustable legs with clips provided with your order. Toe Kick is trimmed and ripped during installation for a perfect, finished fit at the floor line.

*Visit **www.werever.com** to view available colors and door styles for all cabinets.*

**All Werever Outdoor Cabinets are constructed from solid, ¾” high-density polyethylene.**
